Name of Program/Services

Transitional Therapeutic Foster Care

Description of Services

Transitional Therapeutic Foster Care (S5145 U5) (TTFC) service is intended to provide emergency treatment, structure, stabilization and supervision to youth ages 5-18, who have Medicaid within the Alliance Counties who have been identified as experiencing a behavioral health crisis that deems them in need of immediate support or who are in the need of intermediary support while awaiting linkage to a higher level of care or therapeutic stabilization. The goal is to provide robust supports to the family for staying with these high needs youth and avoiding additional unnecessary placements.

Required Elements of the Program/Service

- 30 day stay or discharge according to documented transition plan.
- Seven days to complete CCA or CCA Addendum and PCP and allow for rapid placement.
- Referral decision within 24 hours of referral receipt for all referrals made during the business day. Referrals accepted through Alliance Care Management only. Alliance Care Management will prioritize DSS involved youth referrals who are also seeking PRTF beds, or who are being

referred due to ED stay without acute care needs. Rapid Placement is expected (within 24-48 hours M-F)

- Provider maintains a 90% acceptance rate when beds are open and available.
- TTFC parents paid every two weeks.
- CFT within 2 business days of placement
- Hold weekly staffings as part of the treatment team
- Ensure medication management support within 7 days of placement if identified as a need or at the point the need is identified.
- Ensure a trauma screening, assessment and or/psychological eval within 7 days of placement if identified as a need at referral.
- Provide crisis support from a Qualified Professional to ensure stability as needed and/or requested.
- Provide active intervention in assisting children and youth to remain involved in naturally occurring community support systems and supporting the development of personal resources.
- Provider will use preference assessment tools to guide linkage to supports that build upon the youth strengths.
- Provide psychoeducation to treatment family and caregivers and or DSS about the member's diagnosis and treatment.
- Providers will develop specific individualized interventions including identifying triggers that lead to crises, to assist in anger management, relearning relevant social skills, family and/or caregiver skills, stress management, relationship support, and intensive crisis or crisis prevention and management including de-escalation interventions exclusive of physical restraint.
- Ensure linkage to community services and resources, including connecting with schools, vocational programs and other service and physical health providers (if services are already in place, they may maintain to support in home).
- Will partner with Alliance Care Management to develop a transition plan for members.
- The provider will not discharge prior to member transitioning according to plan. If with notice is given to Alliance Care Management agency and family forfeits incentives. Discharges for health and safety or those initiated by a third party, ex. Guardian, are not out of compliance with this SOW.
- Provider will use CCW to enter available TTFC beds and update admissions and discharges for real time information.
- Care Management will be the referral source.

Collaboration

Provider and TTFC parent(s) will collaborate with DSS/Juvenile Justice if applicable, Alliance Care

Management staff, schools, other treatment providers and family/caregivers. **Documentation Requirements**

This service follows all requirements of CCP 8a for Level II Family Type. CCA and PCP must be developed within the first seven days.

Utilization Management

Authorization not required.

Finance

TTFC is billed daily at \$200/day (S5145 U5).

Parent incentive @ \$33 per day is S5145 U5 Z1 is billed at 1 per day
