Universal Child and Adolescent Residential Placement Referral Form

Instructions for completion:

Consistent with System of Care principles, the Universal Child and Adolescent Residential Placement Application offers a comprehensive clinical review of a child's/adolescent's needs for purposes of admission to a residential provider contracted with any of the six North Carolina Local Management Entities/Managed Care Organizations (LME/MCOs). Please note: All references to "member" in this form refer to a Medicaid member or a State-funded Services recipient.

Please follow the instructions below:

1 This application should be completed in its entirety. Answer each question to the best of your ability, indicating not applicable or not available where appropriate. Applications may be returned to the referring party if deemed incomplete.

2 Do not enter "see attached" in sections requiring specific detail. If you have a document that provides greater detail than can be entered, reference the document name, date, and page number at the end of your explanation. (e.g., Physical Assessment, 07.01.15, page 3). Submit any reference documentation along with this application.

3 The person completing this application is responsible for obtaining necessary releases/authorizations to disclose protected health information.

4 The Universal Application must be signed by the legally responsible person as defined at N.C.G.S. § 122C-3(20): "a parent, guardian, a person standing in loco parentis, or a legal custodian other than a parent who has been granted specific authority by law or in a custody order to consent for medical care, including psychiatric treatment."

Disclaimer: This form was created for the convenience of referring agencies and individuals to streamline discharge planning and to eliminate time and redundancy associated with multiple, agency-specific placement applications. However, the use of this form does not, and should not be construed to guarantee authorization of residential or other treatment by the applicable LME/MCO or admission by any eligible provider. Moreover, responsibility for appropriate discharge from inpatient facilities remains with the discharging provider.
