### MEDICATION RESOURCES

Patient Advocacy Foundation (PAF) Co-Pay Relief Program (CPF) : Provides direct financial assistance to qualified individuals, assisting them with prescription drug co-payments, coinsurances and deductibles.

#### PHARMACIES (Non-Profit)

- NC Med Assist : Non-profit pharmacy program for North Carolina (NC) residents that provides FREE access to lifesaving prescription medications, patient support, advocacy and related services to poor, vulnerable, and uninsured NC residents. The pharmacy mails the prescriptions to non-Mecklenberg County NC residents..
- Rx Outreach: Non-profit mail order pharmacy in St Louis that ships directly to individuals' homes. It is available to qualifying individuals and families. Patients can be on Medicaid, Medicare or other health insurance and still receive medications from Rx Outreach. There are no enrollment or membership fees.

#### PHARMACY DISCOUNT PROGRAMS :

- FamilyWize: A huge consumer group buying service for the uninsured and underinsured. The discounts and savings on medications are provided voluntarily by the more than 61,000 participating pharmacies that have agreed to provide prices similar to what they give large insurance companies and employers.
- NCMS Discount Prescription Drug Card : Touts savings of up to 75% (discounts average roughly 30%) at more than 68,000 national and regional pharmacies. This card can be used as the primary plan and/or it can be used on prescriptions not covered by an insurance plan.
- Needy Meds : Non-profit clearinghouse that provides information on all medical needs, including medications. It collects data on patient assistance programs, drug coupons and rebates, and offers its own drug discount card.
- For profit programs (these mostly exclude independent pharmacies which may match chain pharmacies' discount prices)
  - Blink Health offers a free app that finds the cheapest price for a drug and locks it in for individuals who can then pay on-line and fill their prescriptions at one of 60,000 pharmacies in the United States.
  - Good Rx : collects and compares prices and then offers consumers a coupon to get the best rate. The company has information on every FDA approved medication at more than 70,000 US pharmacies (mostly chains). Once the individual finds the best price at a local pharmacy, they can either print a coupon or show it on their smart phone.
